

Precision Solutions for a safe Tomorrow

About Us

Trend AI Wessal is a leading provider of calibration, repair, and trading services, committed to delivering precision and reliability in every project we undertake. Established with a focus on excellence and customer satisfaction, we cater to various industries by ensuring their instruments and equipment operate at optimal accuracy and efficiency.

With years of experience in the field, Trend AI Wessal has become a trusted partner for businesses seeking expert calibration services. Our state-of-the-art calibration facility is equipped to handle a wide range of instruments, including pressure and vacuum devices, temperature measurement tools, electrical instruments, length and dimensional instruments, volumetric devices, and gas detectors. We ensure that each instrument is calibrated to meet stringent industry standards, providing our clients with the confidence that their equipment is performing at its best.

Trend AI Wessal

Projects Calibration Facilities

- Calibration of pressure & vacuum instruments.
- Calibration of temperature instruments.
- Calibration of electrical instruments.
- Calibration of length & dimensional instruments.
- Calibration of volumetric instruments
- Calibration of gas detectors

Trend AI Wessal

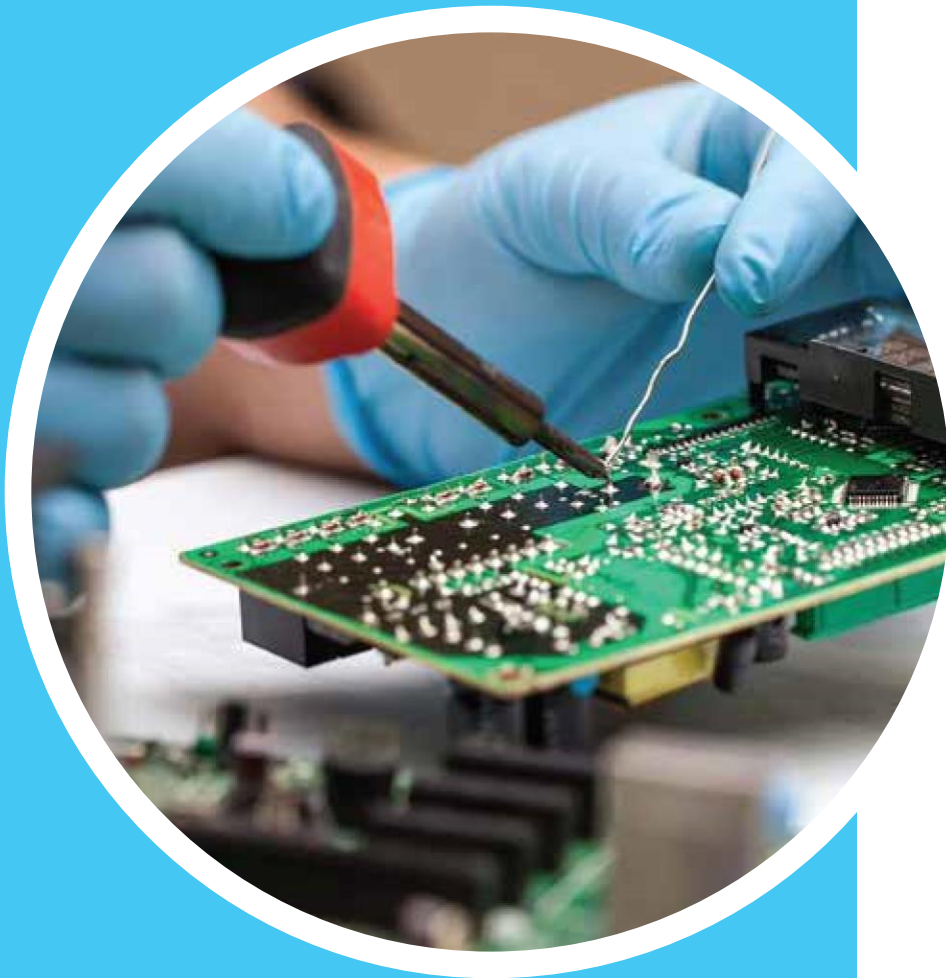

Projects Repair Facilities

- Repair of electrical related instruments.
- Repair of survey instruments.
- Repair of civil instruments.
- Repair of temperature instruments.
- Repair of gas detectors.
